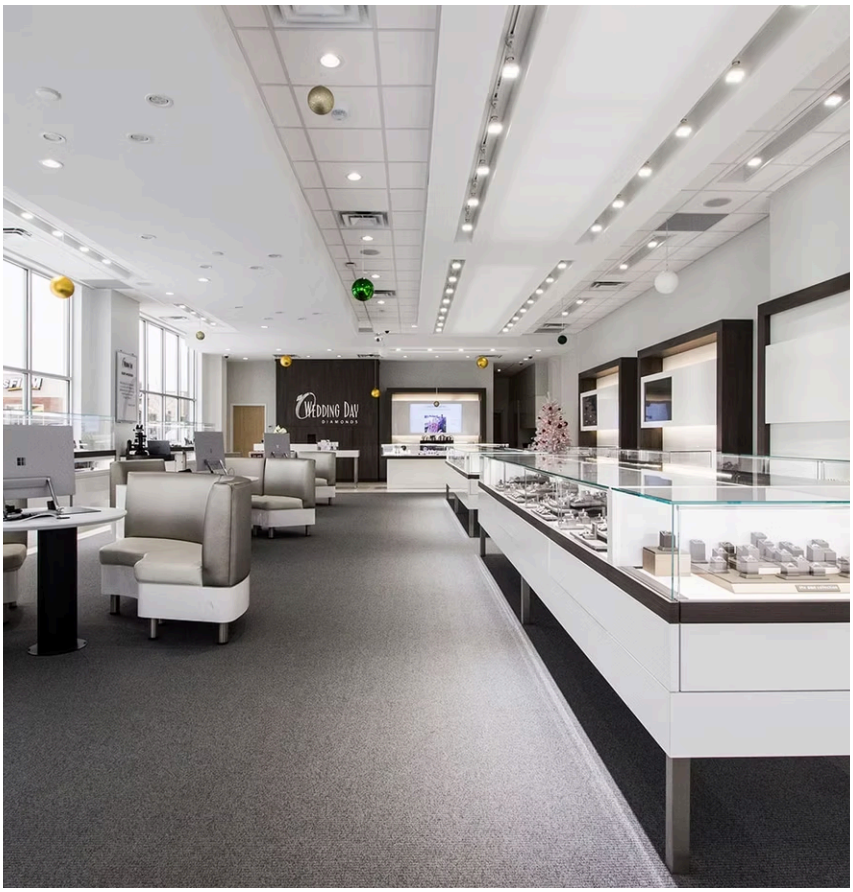
tanek

architecture & interior design



Dermatology Consultants.

Over the past two decades, Tanek has partnered with Dermatology Consultants to develop and enhance all four of their Twin Cities locations. These projects, ranging in size from 6,200 to 16,800 square feet, include new clinic buildouts, expansions, and interior finish remodels. Our long-standing collaboration reflects a shared commitment to creating functional, welcoming spaces that meet the evolving needs of their patients and staff. This enduring relationship is a testament to the trust and value we place in working together.
