## Lakes Sotheby's International Realty

For Lakes Sotheby's Minneapolis office, located in the historic Fisher Box Building, Tanek designed a space that honors the building's industrial legacy while introducing a refined sense of residential warmth. The open ceilings, custom millwork, and curated art pieces create a sophisticated yet approachable atmosphere that aligns with the Sotheby's brand. A signature chandelier anchors the conference room, offering a striking focal point that blends elegance with modern design. Adding a touch of celebration and charm, a Moët & Chandon vending machine brings an unexpected and memorable element to the space—perfectly capturing the balance of luxury and personality.
