# Hatchery Row.

This mixed-use project in greater Minnesota brings valuable new commercial space and housing units to the heart of the town, enriching its core with thoughtful design and functionality. Over half of the apartments feature covered balcony spaces, enhanced by timber-framed roof overhangs that add warmth and character to the structure. Residents also benefit from the convenience of enclosed, heated parking, ensuring year-round comfort. This development seamlessly integrates modern amenities with a welcoming, small-town atmosphere.
