

architecture & interior design

Home Goods @ Rosedale Commons.

Tanek led the repositioning of Rosedale Commons with a fresh approach to retail design, aimed at revitalizing the aging center and boosting leasing potential. The original interior common corridor posed a significant challenge, prompting a bold concept to remove the outdated covered canopy and replace it with vibrant, modern storefronts that enhance visibility and curb appeal. The transformation introduced a more dynamic and engaging retail environment, attracting new tenants and reinvigorating interest in the property. As a result, leasing activity increased, and Rosedale Commons continues to thrive as a refreshed retail destination.
