# Fathom Advisors.

This project involved a tenant improvement to create a sophisticated new office for Fathom Advisors, reflecting their commitment to providing exceptional client service. Designed with a modern, high-end aesthetic, the space balances innovation and luxury to align with the lifestyle of the firm's clientele.

Key features include a striking reception area with real wood flooring, a marble-look tile wall, and an LED fireplace, creating a timeless and welcoming ambiance. In the employee break area, waterfall quartz countertops add a bold, luxurious touch. These thoughtful design elements combine to deliver an impressive, high-impact environment.
